

LICHTGITTER – OFFICIAL DISTRIBUTION PARTNER OF STRONGWELL CORPORATION

The Strongwell Corporation, headquartered in the USA, is one of the leading and biggest companies in the area of pultruded composites.

In October 2018, Lichtgitter and Strongwell signed a distribution partnership. Thus, the Lichtgitter Group appears now as an official Partner of the Strongwell Corp. on the market for pultruded gratings.

Pultruded gratings are a composite of fiberglass reinforcements (fibers and mat) and a thermosetting resin system, produced by the pultrusion process. The profile system convinces with a high strength and stiffness. Furthermore, the coated surface provides additional corrosion resistance and UV protection.

Lichtgitter distributes the brands DURADEK® and DURAGRID® from Strongwell. They are executed in the resin variants polyester and vinyl ester. The special DURAGRID® PHENOLIC gratings, which provide a serious advantage with their fire resistance, are available in the portfolio as well.

The Strongwell Corp. is worldwide the only company, who meets with their DURAGRID® PHENOLIC gratings the current norm of the US Coast Guard (level 2 (L2)) and the ASTM F3059-15.

In addition, the phenolic gratings have been certified through the ABS, DNV-GL, LR, BV and fulfills the requirements of the IMO – MSC.62 (67).

Strongwell´s pultruded gratings are exclusively manufactured in the USA
